CASSETTE OPTIONS

Semi or full enclosure

The Shademaker Apollo™ Series is a modern, architecturally driven retractable awning built for residential and light commercial applications. Available in Semi-Cassette and Full Cassette configurations, Apollo™ combines a minimalist low-profile cassette design with sealed bearing precision arms and a heavy-duty torsion bar — delivering smooth quiet operation, fully concealed components, and long-term structural integrity.

KEY FEATURES

- **Precision Sealed Arm System**
Smooth, quiet, consistent operation across the full span
- **Fully Concealed Components**
No exposed wiring, fixtures, or hardware — open or retracted
- **Smart Home Compatible**
App control and home automation integration via Somfy®
- **Heavy-Duty Torsion Bar**
Reinforces structural integrity and stability across large spans
- **Motorized Push-Button Operation**
Optional wind & sun sensors for automatic deployment
- **Coastal-Grade Construction**
Built for Florida heat, UV exposure, and coastal environments
