Bold C-Channel exposed edge design

23' 10"

MAXIMUM WIDTH

Residential & commercial spans

6'

MAXIMUM PROJECTION

2' through 6' standard

100+

FINISH OPTIONS

Powder coat + wood grain sublimation

The C Channel Series Canopy System delivers a distinctive blend of industrial utility and refined architectural detail. Featuring a bold C-Channel fascia with an exposed edge and strong linear profile, these canopies bring a clean yet rugged aesthetic to any structure — equally suited for contemporary homes, mixed-use developments, and commercial buildings that demand both function and visual impact. Constructed from heavy-duty extruded aluminum — not roll-formed metal — and available as welded fully assembled units or knock-down kits, the C Series is as practical to install as it is striking to look at.

KEY FEATURES

C-Channel Fascia Design

Bold exposed-edge profile creates a minimalist, industrial-modern architectural statement

Integrated Drainage System

Seamlessly manages rainwater, preserving walls, doors, and walkways below

Versatile Bracket Options

Choose arm styles to complement rustic, industrial, or refined architectural themes

Extruded Aluminum Construction

Heavy-duty, rust-resistant aluminum — powder coated inside and out for complete protection

Welded or Knock-Down Kits

Fully assembled for rapid install, or knock-down for streamlined freight and field assembly

Wood Grain Sublimation Finish

In-house upgrade for a warm, natural appearance — pairs beautifully with siding and panels
