MAINTENANCE  
Rust, fade & warp resistant aluminum

The Bahama ClearView Shutter adds coastal charm and functional sun protection to any window — with a louvered design that lets you see out from the inside while blocking UV rays and reducing glare from the outside. Crafted from durable powder-coated aluminum, each shutter is engineered to withstand harsh weather year-round while resisting rust, fading, and warping. The angled louvers keep interiors cooler, protect furnishings, and maintain natural ventilation — delivering both tropical curb appeal and practical, all-season performance for homes, vacation properties, and commercial buildings.

## KEY FEATURES

- **Louvered See-Through Design**  
Angled louvers allow full outward visibility and airflow while blocking exterior view and direct sun
- **Durable Aluminum Construction**  
Powder-coated aluminum frame resists rust, fading, and warping in coastal and high-humidity environments
- **Low Maintenance, Long Life**  
No painting, no rotting, no warping
- **Permanent UV & Sun Protection**  
Reduces glare and blocks harmful UV rays without sacrificing natural light or interior comfort
- **Tropical Curb Appeal**  
Classic Bahama shutter profile adds coastal architectural character to any residential or commercial facade
- **Adjustable or Fixed Arm Options**  
Customize the shutter mounting angle
