3' - 6' heights

**100+**

FINISH OPTIONS  
Powder coat - full color range

**Zero**

MAINTENANCE  
No painting, sealing, or refinishing

The Bahama DecoView Shutter adds coastal charm and functional year-round shading to any window or facade. Built with angled louvers, DecoView provides excellent sun protection and privacy while still allowing you to see out from the inside — maintaining natural light and ventilation without sacrificing comfort or curb appeal. Crafted from durable powder-coated aluminum, each shutter is engineered to withstand harsh weather while resisting rust, fading, and warping. The adjustable louver angle keeps interiors cooler, reduces glare, and protects furnishings — making it ideal for homes, vacation properties, and commercial buildings.

## KEY FEATURES

### Adjustable or Fixed Arm Options

Choose adjustable arms to dial in the exact louver angle, or fixed arms for a permanent set-and-forget installation

### Permanent UV & Sun Protection

Reduces glare and blocks harmful UV rays without sacrificing natural light or interior comfort

### Tropical Curb Appeal

Classic Bahama shutter profile adds coastal architectural character to any residential or commercial facade

### Louvered See-Through Design

Angled louvers allow outward visibility and airflow while blocking exterior view and direct sun from the outside

### Durable Aluminum Construction

Powder-coated frame resists rust, fading, and warping in coastal and high-humidity environments year-round

### Low Maintenance, Long Life

No painting, no rotting, no warping — aluminum construction holds its finish and shape for years
