FINISH OPTIONS

Powder coat + wood grain sublimation

The T Series Open Tube Canopy delivers clean, modern structure with bold shadow lines and strong architectural presence. Designed as a decorative canopy and elevation feature, this minimalist open-tube system enhances windows, doors, and storefronts with shadow, depth, and proportion. Constructed from powder-coated aluminum and available with front support arms or in a cantilevered configuration, the T Series is a fully customizable design element equally suited for residential, commercial, and multi-unit projects.

KEY FEATURES

Open Rectangular Tube Frame

Clean tube profiles in 6", 8", 10" or 12" sizes — engineered for bold shadow lines and lasting performance

Fully Custom Tube Spacing

Customize tube spacing and layout to control light filtering, rhythm, and architectural proportion

No Fading, No Peeling, No Upkeep

Wood grain finish replicates natural richness with zero maintenance — no paint, no rot, no refinishing

Arm-Supported or Cantilevered

Visible structural arms for added projection, or cantilevered for a seamless floating look

Custom Widths & Projections

Full canopy — frame, arms, and tubes — finished in wood grain sublimation via ArchEx USA in-house

Custom Widths & Projections

Built to fit any window, door, or storefront — standard sizes or fully custom to your exact dimensions

T SERIES FINISH & CONFIGURATION UPGRADES

The T Series pairs perfectly with 1800Awnings' ArchEx USA wood grain sublimation finishing — transforming the entire canopy, frame, arms, and tubes into a striking statement piece. Whether paired with coastal siding, stone, stucco, or metal panels, the wood grain finish adds organic texture and high-end design with no fading, peeling, or maintenance over time.
