6'-7" through 13'-0"

The Shademaker Zeus™ Series is the flagship residential retractable awning — built for homeowners who expect more from both design and performance. A slim, low-profile cassette fully conceals all components so Zeus™ integrates seamlessly into your home rather than simply attaching to it. The Zeus Precision Arm System™ uses sealed bearing components and a concealed internal tension system to deliver smooth quiet operation and stable, wrinkle-free fabric tension across every span.

KEY FEATURES

Zeus Precision Arm System™

Sealed bearing components, smooth quiet operation, consistent fabric tension

Somfy® Motorized Operation

Push-button control with optional wind & sun sensors

4 Architectural Frame Finishes

Alpine White, Onyx Black, Walnut Bronze, Sierra Bronze

Slim Low-Profile Cassette

Fully concealed components — clean appearance open or retracted

Smart Home Integration

App control and home automation ready via Somfy®

Coastal-Grade Durability

Built for Florida heat, UV exposure, and coastal environments.
